

## EDUCATION

---

**University of California, Berkeley**  
Major: Molecular & Cell Biology (Immunology)  
GPA: 3.49

Bachelors of Arts  
Class of 2015

**University of California, Los Angeles-Ext**  
GPA: 3.95

post-baccalaureate

## EXPERIENCE

---

**University of Southern California**  
**Lee Lab - Microbiology, Immunology, and Molecular Genetics**  
*Laboratory Technician*

Los Angeles, CA  
[08/2018 – 11/2018]

- Performed next-generation sequencing, Sanger sequencing, viral RNA extraction, RT-PCR, PCR, and other duties as needed for a NIH-funded project studying HIV intra-host evolution
- Wrote, updated, and maintained protocols for projects
- Maintained lab inventory and supplies
- Created cost analyses spreadsheets on research methods for project goals
- Conducted literature searches

**C2 Education**  
*Teacher*

Los Angeles, CA  
[07/2018 – 11/2018]

- Taught a variety of subjects ranging from Algebra, SAT math, Biology, Calculus, and Statistics in a 3:1 student: teacher ratio

**Brittain College**  
*English Teacher*

Peru  
[05/2018 – 06/2018]

- Taught English to students in elementary school and middle school

**University of California, Los Angeles**  
**Hematology/Oncology**  
*Staff Research Associate*

Los Angeles, CA  
[10/2017 – 05/2018]

- Tested and screened large amounts of compounds for potential therapeutic benefits to hemopoietic stem cell regeneration
- Collected and analyzed data using Stata, GraphPad, and Microsoft Excel
- Performed tail vein injections and bone marrow harvest + cell isolation in mice
- Maintained lab inventory and performed lab maintenance duties as assigned

**University of California, San Francisco**  
**Werb/Fong Lab – Department of Anatomy**  
*Undergraduate Researcher*

San Francisco, CA  
[05/2014 – 08/2015]

- Developed a 10-color flow cytometry panel to evaluate immune infiltration and activation of T cells in tumor cells and multiple systemic organs using a mice model
- Performed organ harvest of mammary glands, lungs, spleen, and various tissues for analysis in flow cytometer and technically difficult surgeries like blood perfusions
- Performed various lab duties such as paraffin embedding of tumor and normal tissues
- Collected and analyzed data using flow cytometry

**University of California, Berkeley – Schaffer Lab**  
**Stanley Hall**  
*Research Assistant*

Berkeley, CA  
[01/2013 – 06/2013]

- Administered daily cyclosporine injections intraperitoneally to rats in the NAF for a project analyzing whether membrane bound stem cells would increase the likelihood of differentiating into cells that release dopamine in the brain

*Research Assistant*

- Worked full time during the summer and helped a postdoctoral student with his project involving dendritic cells and dengue virus
- Learned various techniques such as intradermal injections, making plaque assays, growing and splitting cell cultures, infecting cell culture lines, and harvesting and concentrating dengue virus from the cell cultures
- Learned how to euthanize and anesthetize the mice and performed organ harvest of lymph nodes and intradermal injections
- Regularly checked up on mice for their morbidity levels and weights for an influenza project and dengue project
- Attended weekly lab meetings that discussed related papers and findings to the dengue project

## LEADERSHIP & OTHER EXPERIENCES

---

### **Foundations Choreography - UCLA**

Los Angeles, CA

*Captain*

[9/2017 – 12/2017]

- Main responsibility: to be the bridge between Foundations members and leadership
- Handled administrative matters regarding the team including but not limited to: coordinating team gear purchases, rides to events, and social events
- Led team stretches and warm-ups before practice

### **Thrive Scholars** formerly known as **South Central Scholars**

Los Angeles, CA

*General Chemistry TA*

[06/2016 – 08/2016, 06/2018 – 08/2018]

- Developed and taught a general chemistry course with Professor Harran from UCLA
- Led problem solving sessions to supplement class
- Wrote and graded quizzes and exams

### **Good Samaritan Hospital – Heart and Vascular Department** **Los Angeles Cardiology Associates – Private Practice**

Los Angeles, CA

*Shadow & Intern*

[08/2015 – 01/2016]

- Went on rounds with cardiologists and nurse practitioners
- Wrote patient histories
- Observed interventional cardiology surgeries: TAVR, IVC filter as well as open heart surgery (CABG)
- Shadowed out-patient visits
- Attended lectures on various topics: Structural Heart Therapies, New Therapeutic Approaches to Chronic Headache, Physician Assisted Suicide: A Surgeon's Perspective, and others
- Interpreted in Korean
- Maintained a clinical database
- Created patient surveys for research

### **The Hep B Project**

Berkeley, CA

*Healthcare Volunteer*

[09/2013 – 05/2015]

- Participated in weekly clinics catering to people who lack adequate health care or awareness or health insurance in regards to Hepatitis B by making phone calls with patients for follow-up screenings (using Korean, English, or Spanish), and filling out patient information forms

### **Thrive Scholars** formerly known as **South Central Scholars**

Berkeley, CA

*UC Berkeley Regional Director*

[04/2014 – 06/2015]

- Maintained a database of scholars from UC Berkeley and networked with current scholars attending UC Berkeley
- Served as a mentor for current scholars attending UC Berkeley by checking academic progress, personal updates, and discussing long term goals and how to achieve goals for scholars
- Coordinated social networking activities
- Reported all activities and expenses and remitted to South Central Scholars: event/activity reports, sign-in sheets, journal log, and an end of the year report

## SKILLS & CERTIFICATIONS

---

Microsoft Office, cell culture, virus culture, intraperitoneal injections, intradermal injections, blood perfusions, flow cytometry, mice & rat models (animal handling), ELISA assays, immunoprecipitation, PCR, Western Blot, Stata, GraphPad, tail vein injections, RNA extraction

Basic Life Support Certification (expires Jan 2021), among others

### **Awards:**

Berkeley Undergraduate Scholarship

Dean's Honors Spring 2013 and Fall 2013

South Central Scholars Scholarship

Korean Heritage Scholarship

KIMBO Foundation Scholarship

**Spoken Languages:** Korean (native/bilingual) & Spanish (limited working fluency)

[GitHub](#)

## Skills

React.js, Redux, JavaScript, HTML5, CSS3, Ruby on Rails, jQuery, SQL, PostgreSQL, AWS, MongoDB, Node.js, Git, Python

## Projects

**DisArray** (React/Redux, Ruby on Rails, PostgreSQL, HTML5, CSS3, Heroku)

[live site](#) | [github](#)

*Inspired by Discord, a popular messaging app*

- Leveraged Rails' Action Cable and Redis to manage websocket connections for live chat functionality, allowing users to communicate in real time
- Implemented server and channel creation utilizing RESTful APIs to handle multiple CRUD operations, giving users the ability to customize their UI/UX and enhance the overall user experience
- Utilized Amazon Web Services for faster lookup on user uploaded background images
- Developed a single-page app using client-side routing with React Router, eliminating the need for page refreshes to create a seamless navigation experience

**Harmony-Music** (JavaScript, React/Redux, MongoDB, socket.IO, CSS3, Node, Express, Webpack)

[live site](#) | [github](#)

*Interactive app that allows users to create music solo or with friends*

- Designed and implemented a database schema with MongoDB as Backend Lead to manage user information as well as music information
- Incorporated Git workflow protocols and collaborated with a team of 3 software developers
- Connected socket.IO with React/Redux to enable users to interact with other users, allowing chat functionality, music visualization, and music creation in real time

**Logos** (JavaScript, HTML, CSS, Canvas, Heroku)

[live site](#) | [github](#)

*Game to guess the missing word in bible verses*

- Applied Object-Oriented programming with unique classes to illustrate separation of concerns design, resulting in more modular code
- Manipulated text to handle overflow cases and handle pixel differences within set parameters of canvas
- Utilized a randomized index to dynamically hide a word, resulting in a unique user experience with each game
- Implemented a hint button that progressively displays the hidden word, character by character by utilizing Javascript's slice function and caching the hidden word within Game state

## Experience

**Laboratory Technician** | University of Southern California, August 2018 - November 2018

- Performed next-generation and Sanger sequencing, viral RNA extraction for a NIH-funded project

**Teacher (STEM)** | C2 Education, Los Angeles, July 2018 - November 2018

**English as a Second Language Teacher** | Brittain College, Peru, May 2018 - June 2018

**Staff Research Associate** | University of California, Los Angeles, October 2017 - May 2018

**General Chemistry TA** | University of Southern California, June 2016 - August 2016, June 2018 - August 2018

**Shadow & Intern** | Los Angeles Cardiology Associates - Good Samaritan Hospital, August 2015 - January 2016

- Observed cardiology surgeries, maintained clinical database, and surveyed patients for research

## Education

**University of California, Berkeley** | B.A. in Molecular and Cell Biology - Immunology | 2011-2015

**App Academy** | Spring 2020 | San Francisco, CA
